A special thanks to all our sponsors who have helped make this yearbook. On behalf of the yearbook team we would like to thank you for all the hard work that you have put in alongside us to make this book a reality.

"Coming together is a beginning, staying together is progress, and working together is success."

– Henry Ford

# FAREWELLS

Mrs. Sana is one of the kindest, sweetest teachers to have taught in ISM and UWCEA. Throughout her time here to inspire us and she has expressed her interest in service and the environment.

In doing so she has inspired us as students to love each and every one and to be kind. On behalf of all the students she has taught in ESS, I and S, art and global politics, we would like to thank you for all that you have done for us. With her bright smile and her heartwarming words, she will truly be missed, all the best Ms.

Miss. Marniel has served as a wonderful addition to our school for three years now. She has had the pleasure of teaching us both History and Self-taught for diplomas. All throughout her time here, she has been one of the most interesting and fun teachers, gracing classes with her memorable laughter and comments. As she leaves, on behalf of all her students we would love to thank her for all the joy and the knowledge she has passed onto us. You shall truly be missed and we wish you all the best on your upcoming journey!

Mrs. Julia has served the school for four years. As one of the residential boarding parents in Kisiwa dorm, she definitely made the experience for the Kisiwa folks more memorable. Her exceptional baking skills left all of us not just filled in our stomachs, but filled with so much joy for a kind soul. We wish her all the best on her new journey!

Mr. Marsh has served the school for three years. His excellent work as the head of sports and his countless efforts as the design teacher. His endless puns and jokes never failed to put a smile on students' faces. His pure dedication to rugby was very infectious and his antics will be truly missed on the field. Good luck Princess!

Ms Taylor, The last year has been different. It's been a long and rigorous journey with the IB, but a short and amazing time with you.

The years to come, definitely, will be different as well. They will be without the extraordinary charm you carried along with you in every lesson that you taught. They will be without the smile that showed all those that walked passed you.

To your new journey, we hope it matches the awesomeness that you are. We hope it's as kind to you as you have been to us. We hope it doesn't blur your memories with us, for ours will remain as vivid as day.

Thank you Ms Taylor.

"Live long and prosper!" - Spock

Miss Jackie's determination and relentlessness never failed to get her biology classes to learn; and how her efforts were appreciated. Her activity choices (Irish dancing, and the Electron Transport Chain song) always ensured plenty of laughter. Her care and motivation in her science and mentor classes will be missed at UWC EA. We wish her well in her next adventure.

**As they prepare for P1, the EC students have been working hard to get to the next stage. It has been a real joy to see them grow and progress in different areas. Togetherness was a value that was stated in the EC class, they were able to love and take care of friends they made and fully respected their teachers. Best wishes for them as they make the next step to greatness!**

**Luke Macquet**

**Micaiah de Lange**

**This year in P1, meaningful friendships were made and lots of fun was had! They are a group of smart, kind and special people who have excelled in the class. A lot of buzz was felt when joining the P1 class, a wide range of emotions, more of nervousness than excitement. With time came the building of chemistry, and that has allowed the class to expand as a group. We wish them the best of luck as they transition into the next class!**

**-Mboka Mwasongwe**

**Thomas Larose**

**Kateryna Andreichuk**

**We've had such a small class this year, and yet never felt like a closer knit community. Many of the P2 students were tiny when I first saw them four years ago. They are such communicators that we often find ourselves discouraging communication as a class skill! One of the moments the students have excelled at is sharing their learning about saving water and the importance of decreasing plastic waste. The students read about the implication that having limited freshwater has on Earth, as well as the effect plastic trash has on the ocean and marine life. They have created persuasive letters sharing their learning and thoughts with the UWCEA Community. The P2s love learning and are curious about everyone and everything around them. The P2s are messy, loud and energetic! They are excellent athletes and have a mean competitive streak! Our biggest challenge this year has been our artistic aptitude. It's been incredible seeing how much we've all grown this year as artists as we near the end of this school year.**

**This year in P3/4 was filled with lots of learning and plenty of fun. Highlights included: Hero reports, science experiments like elephant toothpaste, our Class Museum of artifacts from around the world, setting maps with compasses, the Endangered Animal Expo, and our camping trip to Mkomazi! The students were such a friendly bunch and we were able to study so many things together.**

Our class kept growing this year - we started with 15 children and, at the point of writing, were up to 20! We were glad to welcome new friends to our happy group. In Semester 1 the class learned about rights and responsibilities. They took action by holding a very successful clothing and food drive for the Mwereni Integrated School and the Amani Centre respectively. An exciting activity during our inquiry into body systems was a heart dissection. All the children listened attentively and used the scalpels with care. We learned a lot - maybe there are some future surgeons in the class! Our camp was especially fun this year as we combined it with a safari in Arusha National Park and learned about landscape features such as lakes and volcanoes. Other highlights of the year included learning about bees with Simon Mtuy and the Bee Club, performing a song at the Evening of the Arts and honouring our mothers at the International Women's Day assembly. It was a great year and we are already looking forward to the next one where the PYP Exhibition awaits us!

**The last year of PYP has seen P6, the class of 2029, experience many things. Painting with local artists, a tour of TPC, river walks, waterfall swims, tie-dying t-shirts, overnight camps, rock parties, visiting Wachagga huts and underground caves, and more. Of course, their exhibitions were a highlight of the year. The children camped at Kishari as they began discussing their ideas. This led to presentations ranging from local bicycle initiatives to collecting clothing for the homeless. The exhibitions themselves were varied and wide ranging and lauded as a great success. As MYP approaches the children are working towards this transition. Activities alongside our current M1s will help bridge the jump as they build on the next step of their academic journeys.**

A large, bold, white capital letter 'D' is the central focus of the image. The background is black and is decorated with numerous small, five-pointed stars in yellow and white. There are also several stylized firework bursts, depicted as radiating lines of yellow and white dots, located in the top-left and bottom-left corners. The overall design is celebratory and festive.

D

*Graduating*

A large, bold white number '2' is centered on a black background. The background is decorated with yellow starburst patterns, resembling fireworks or exploding stars, in the top right and bottom right corners. A dense field of small yellow and white stars is scattered across the top left and bottom left corners.

**Ondrej Veseley**

**What feels like the  
end is often the  
begining.**

Hardworking, loving, witty, strong, passionate; words like these describe your nature. For a long time we watched: watched as the sweat ran down your cheeks, as the tears trickled down from your eyes, as the ideas emerged from your brains, and as the dreams fell onto your plates. We thank you for setting the pace, for inspiring us, It has been an honour to have you as our D2s and you shall truly be missed.

-The Yearbook Committee

A photograph of a group of people at an outdoor event, likely a festival or race. In the foreground, several individuals are wearing bright orange t-shirts. One person's shirt has the number '2' printed on the back, and another has the number '7'. They are standing in a line, possibly waiting for a race to start. In the background, there are lush green trees with small red flowers and a clear blue sky. A woman in a black crop top and a floral skirt is visible on the left side of the frame. The overall atmosphere is bright and sunny.
