

THE UNITED REPUBLIC OF TANZANIA

The Government of the United Republic of Tanzania has been instituting various preventive measures with a goal to limit the spread of corona virus in the country. After reviewing the current situation of COVID-19 infection in the country, we have observed a decreasing trend of admitted COVID-19 cases as evidenced by the closure of COVID-19 Isolation/Treatment Centres. Furthermore, despite opening of public/private schools and resumption of sports activities, the situation has remained safe. However, there is a likelihood of importation of cases from other countries.
